

Accelerate your Microsoft 365 journey with partner-led services

CSP Deployment Accelerator for Microsoft 365 Business Premium

The CSP Deployment Accelerator for Microsoft 365 Business Premium helps eligible organizations deploy, secure, and adopt Microsoft 365 Business Premium with support from a qualified Microsoft partner. With Microsoft co-funded, partner-led deployment and adoption services, customers can reduce deployment complexity, strengthen security, and help users get value from Microsoft 365 Business Premium faster.

Program Benefits

✓ Funded Services

Microsoft co-invests in deployment and adoption services delivered by partners.

✓ Faster ROI

Accelerate deployment of Microsoft 365 BP workloads and help users become productive faster.

✓ Security first

Implementation of security services (ex. identity, device management, or governance controls).

✓ Adoption support

Awareness, learning plans, and ongoing optimization.

Eligibility | Customers must:

- Purchase a minimum of 50+ incremental Microsoft 365 Business Premium seats through eligible CSP transactions.
- Work with an eligible Microsoft partner to validate eligibility and plan deployment.
- Complete eligible CSP transactions between July 1, 2026, and June 30, 2027.
- Be nominated prior to the sale or within 60 days of provisioning.

What to expect | Partner may help you:

- Prepare your tenant for Microsoft 365 Business Premium deployment.
- Deploy and configure eligible Microsoft 365 Business Premium workloads.
- Configure security and governance policies to help protect users, devices, and company data.
- Support adoption through training, communication planning, and change management.
- Provide ongoing optimization related to deployed workloads.

Ready to get started?

Coordinate with your Microsoft account team or Microsoft partner to validate eligibility, confirm seat requirements, and plan your deployment. You'll receive hands-on support to help deploy, secure, and adopt Microsoft 365 Business Premium across your organization.
